### Accubid's Estimating Solutions Now Talk to ConstructJob

Toronto, Canada, July, 2006

Accubid is pleased to announce that version 7 of its Estimating solutions—Accubid Pro, BidWinner Plus, BidWinner, and PowerBid—can now share estimating data with ConstructJob, Accubid's web-based project management system.

Project managers can now hit the ground running, using the estimate as the starting point for the project. Using the new Accubid Integrator utility, contractors can:

- Transfer the complete estimate and bill of materials to ConstructJob
- Create a project log and purchase orders without re-entering information
- Use their estimate data and cost codes for cost tracking

Contractors can also use the Integrator utility to transfer estimate data to many popular accounting programs, including Timberline,

Forefront, QuickBooks, and ComputerEase. Accubid Integrator comes free of charge with Estimating Version 7.

For more information on Estimating Version 7 or ConstructJob, visit our website at [www.accubid.com](http://www.accubid.com) or call 1-800-222-8243.

Accubid Systems is the leading provider of estimating, billing, and project management software for electrical and mechanical contractors. Accubid products are used by over 14,500 active users in over 4,300 companies across North America. Accubid offers proven solutions for all aspects of the construction process, from estimating to purchasing to project management and billing. Accubid also offers a wide range of professional development courses and product training labs.
