Accubid Estimating Version 7 Now Links to NetPricer™

Toronto, Canada, May, 2006

The recently released Version 7 of Accubid's family of estimating solutions—Accubid Pro™, BidWinner™, BidWinner Plus™, and PowerBid™—now links to NetPricer™, the online pricing service from ElecticSmarts.com. Accubid's new NetPricer Link utility allows Accubid's estimating programs to connect via the Internet to NetPricer and obtain net price quotations from their favorite electrical supplier. The quotations can

then be used to update material prices in the Extension and/or the material database.

NetPricer Link Features

- Secured (username and password) connection to NetPricer service.
- Multiple supplier support.
- Quick analysis feature, allows for the selection of an aggressive best buy price (lowest price) or a specific price from a chosen supplier.
- Overall List of Material screen, individual Supplier results screens, and combined Results page (illustrating either lowest price or price from a specifically selected supplier).
- A status code indicates when an item is not matched, with a red highlight on the combined Results screen to quickly draw attention to a missing price.
- All data received from NetPricer is stored in a XML file, with a date and time stamp to allow for the review of historical quotes.

Accubid Systems is the leading provider of estimating, billing, and project management software for electrical, mechanical, and structured cabling contractors. Accubid's software solutions are used by over 14,500 active users in over 4,300 companies across North America. Accubid offers proven solutions for all aspects of the construction process, from estimating to purchasing to project management and billing. Accubid also offers a wide range of professional development courses and product training labs.

ElectricSmarts.com provides innovative web-based marketing, e-learning, and e-commerce services to the electrical industry.
